

# Prophetic Insight 2019

## Weather

1. You can expect extreme weather on both ends.
2. Please pray pestilence will die with cold air. Chances it won't.
3. There is an end coming to this earth. You and I cannot overlook the changes that are happening in the north, in the oceans, and the droughts.

*The LORD is not slack concerning his promise, as some men count slackness; but is longsuffering to us-ward, not willing that any should perish, but that all should come to repentance. 10But the day of the LORD will come as a thief in the night; in the which the heavens shall pass away with a great noise, and the elements shall melt with fervent heat, the earth also and the works that are therein shall be burned up. 11Seeing then that all these things shall be dissolved, what manner of persons ought ye to be in all holy conversation and godliness, 12Looking for and hasting unto the coming of the day of God, wherein the heavens being on fire shall be dissolved, and the elements shall melt with fervent heat? 13Nevertheless we, according to his promise, look for new heavens and a new earth, wherein dwelleth righteousness. - 2 Peter 3:9-13*

4. Extreme storms in every season. Expect floods to hurt some rural living including some inner cities.

- A. Hurricanes.
- B. Tornadoes.
- C. Droughts.
- D. Floods.
- E. Over flooding oceans.

5. The seasons will get wilder and weirder. It'll be difficult to discern them consistently.
6. The cost of repairs from storms and weird weather patterns will become too difficult. If we seek God, we can beat this.
7. Some people and possibly full urban and rural areas will need to move to more safe areas to survive. Whole cities could end up moving.
8. Entire infrastructures may need to be adjusted as a result of the increase of the ocean by 1/2-inch to 1-inch and waters as well.
9. Humanity cannot handle everything. Prayer by the church is essential.

## Body of Christ

1. The message of the Body changes to fundamentals to maturity. One group will share tradition. Another group will chase fundamentals. Another group will chase maturity. Churches will be made out of these groups.
2. Many churches will follow false prophets. Pay unnecessary charges to see and experience celebrities.
3. Beware of false miracles and signs performed by false anointing.
4. Dead works will emerge in every major city. For many will follow these movements. They'll remember the movements but not experience the power. These movements will die.
5. I'm recalling my dream of ancient malls, some recent people in regards to ancient works.
  - A. Old and yellow.
  - B. A few stores open.
  - C. Lines for the few.
  - D. Little security needed.
6. We're noticing two audiences driving church now.
  - A. Many are looking for basic and soulful messages in this day. Messages that relate to their mind, will, and emotions. No challenges for the spirit. Great music and other things that relate to the emotions.
  - B. Also, many will search for mature messages and true messengers. They'll be looking for words from God for folks who are looking to enrich their spirits, save their souls, and do better by their bodies.
7. Let's start praying for anointed music in Gospel. Much of it will dry up if it hasn't already. Churches with authentic anointing will produce true praise and worship, special helps, special works of the Holy Spirit, and complete peace.
8. Let's fast and pray that these movements will not succeed. It's all in how you dress, performance music, young people, and soulful messages. Many recruit their own comfort level (race, age, lifestyle, etc.) This isn't wrong so much as the message.

## Politics

1. The system of justice is starting to change and usher in. It'll save many things in a good way. But, keep in mind, unless heavy prayer is involved, this form used in justice (explain) will go too far and in its excess cause many problems.
2. Women will continue to rise up and use their voice to reach their audience.
3. Their movement is for real. Many men will adjust in agreement for seasons. God is not against them.
4. The Old man should win the Presidency. You need an old, wise man to heal the people. They should choose him, but people here choose presidents.
5. We'll see the more consistent losses happen for the top. Not knowing will hurt, but this will lead to a complete stalemate, unless we pray and someone compromises.

# Politics

- 6. Levels of wisdom will continue to disappear from various political levels. There are a few, but older leaders still available.
  - A. Few in Senate.
  - B. Few in House.
  - C. Couple at top, but slim on younger leadership.
- 7. The elections of 2020 will be the nastiest and hated of many.
- 8. Judgeships may continue to mean a lot to those who are more for geographical issues over moral ones. We must pray.
  - A. Abortion.
  - B. Gerrymandering.
  - C. Voting rights.
  - D. Abortion rights.

# World Affairs

- 1. Pay attention to China as she become the world leader in many things. She is a pretender. She'll not become an economic leader just yet. But as we continue with our leadership, it'll become faster for her. She's looking to copy and steal all of our blessings. We're too greedy and willing to sale and show, than to protect.
- 2. It'll take wise politicians to make the smart moves to overtake China and others where trade is concerned. You can see what needs to happen, but you must be wise in how to handle.
- 3. We must stay up on technology and in the lead. We must lead not only on the how, but also on the distribution of technology. We're still world leaders. Be careful though, China and India are coming on strong.
- 4. There is quite a contrast of results in Africa and will continue. There are droughts untold manifesting. But there is also the world's largest middle class taking place. There is severe lack of water, but also there is low cost solar in many homes. There is a tremendous move on low cost new fuels. We need to pray for better leaders in Africa. Pray against drought in South Africa as well.
- 5. Please lift your prayers for all of South America. Venezuela will need our prayers for the right president to emerge. America needs a friend here. No oil issues. Brazil needs someone to be racist free and see its place in the world. We need a correction here of currency, destruction to the people, and it's need to carry the South American economy. We must make food available to all and work against any droughts or abandonment of land.
- 6. Our loss of the Pacific Trade Agreement will cost us in our economy and will slow the world economy. Asia will play a major role in goods and services over the next 10 plus years. (There will be more through the year.)
- 7. Keep in mind that China has done a lot of dam and infrastructure work through Africa. This has produced highways and broad electricity. Both have been profitable. But this has come with a great cost. The devotion of mining, precious stones, and etc. is starting to bring a grumble in some places. To some, there is an inequality. I'm not sure on how long this will last. Let's pray no animosity will rise up. China can trace it's living roots back to Africa. But racism is an ugly demonic act.
- 8. Let's pray for Great Britain. The Brexit issue is causing more harm, strife, and discontent. The Holy Spirit has the solution for everyone. This requires the right person with the right personality. Don't be fooled by erroneous teachings on Biblical prophecy. White Christianity in the U.S. and Great Britain are dying. African Americans and Hispanics are choosing other forms of worship. I personally believe that Great Britain will do more than survive. But reclaiming world power will take more than what is showing. Justice is coming folks and time is winding up.

## Sports - Folks of all colors will unite here if others of wrong mindset are left out.

1. Football will remain popular and the poor will embrace more. This is terrible for mindsets. Also, there is a racism issue that will have to be resolved or the sport will change forever.
2. Sports such as Nascar, hockey, and others will need additional participation from folks of color for support, profit, and success.
3. Baseball has proven to be safer than most sports. Many folks of color will participate as the desire grows again. This is especially true of African Americans. Racism continues to be a problem, but let's pray about it. Football loses but if handled right baseball wins.
